THE WHEAT CROP.

Unfavorable Reports from the Grain Growing States.

MILWAUKEE, May 8.—S. W. Tallmadge, the crop statistician, has prepared the following information concerning the present condition of the wheat crop from reports received during the past 24 hours from the official authorities of Missouri, Kentucky, Pennsylvania, Michigan, Maryland, California, Wisconsin, Iowa, West Virginia, Alabama, Dakota, Georgia, New York, Indiana, Illinois, Kansas, Virginia, Nebraska, Minnesota and Tennessee. The reports, as a whole, show the winter wheat crop to be in a very unpromising condition, notwithstanding the recent rains and warm weather have given the plant a better appearance. No improvement can be reported in the promise of the crop. On the contrary, the good weather has developed the actual damage done by winter killing and other causes. Thousands of acres in large winter wheat producing States have been plowed up and sown to oats and other grains. The decrease in area and damage done by "winter killing" seems to be general in all the winter wheat States, with but one exception, that of Michigan. That State reports but a slight decrease in acreage sown, and no winter killing whatever or damage of other kind. With this one exception the loss to the winter wheat States is the greatest ever known and will prove a serious blow to many of the States that depend largely upon their wheat product. The spring wheat States, Wisconsin, Iowa, Minnesota, Nebraska and Dakota, have not yet completed their spring seeding, but are far enough advanced to show that the area will be somewhat decreased from last year. The season is unusually backward, and unless we have a very favorable summer the yield of spring wheat will fall much below that of last year.

EAST MAINE METHODISTS.

Proceedings of Their Annual Conference at Ellsworth.

ELLSWORTH, May 8.—Last evening there was a large meeting at Hancock Hall with a sermon by Dr. Horr of Chelsea, Mass.

The forenoon session of the conference opened with a prayer meeting at 5 a. m. The business session opened with a prayer meeting at 9 o'clock. When the question was taken up who are the superannuated preachers, the names of B. F. Stinson, L. D. Wardwell, W. G. Artell and B. M. Mitchell were called, their characters passed and their relations continued.

A. J. Clifford has been transferred to the St. Louis conference to be stationed at Kansas City, Mo.

The relations of G. M. Fowler, R. Day, W. H. Pillsbury, A. Church, E. Bryant, W. H. Crawford, J. N. Marsh, D. P. Thompson and R. S. Dixon as superannuated preachers were continued.

H. Murphy and N. N. Norris were reported deceased.

C. S. Mills, M. F. Brigham and A. A. Lewis were elected to elders' orders.

Frank D. Handy was located at his own request.

The committee on claims and claimants reported. E. Bryant, B. C. Blackwood, heirs of T. Pratt, C. B. Dunn and children, A. R. Wilson, were voted full claims.

Rev. Dr. Tenney of Ellsworth, the fraternal delegate from the Congregational Church of Maine, was introduced and gave an excellent address, which was happily responded to by Bishop Bowman.

C. A. Plummer announced that the conference was authorized to draw on its trustees for $238 for superannuated preachers and $194 for domestic missions.

Dr. Allen and Rev. C. E. Springer, of the Maine Conference, were introduced.

Dr. Kidder, secretary of the Board of Education, addressed the conference on the interests of the board.

G. B. Chadwick, C. L. Banghart and R. L. Newton, probationers, were admitted into full connection.

Rev. E. A. Herring, delegate from Ellsworth Baptist Church, was introduced and made an address.

AFTERNOON SESSION.

The afternoon session opened with a meeting of the Woman's Foreign Missionary Society, A. A. Lewis in the chair. Mrs. A. T. Helmershausen, secretary, read an interesting report, and there was an address by Miss Clara M. Cushman, a returned missionary from China. Seventy dollars were raised for foreign missions.

At the annual meeting of the Preachers' Aid Society, which followed, E. H. Beale was elected president; B. B. Byrne, vice president; L. D. Hanscom, secretary; J. W. Day, treasurer; J. A. Morslan, auditor. The treasurer's report showed $7000 at interest.

At the evening session in Hancock Hall the anniversary meeting of the Church Extension Society was held. Deputy Collector Hewitt of Thomaston presided, and addresses were made by Bishop Bowman, Dr. Allen of Brunswick and Rev. A. S. Ladd of Biddeford.

Aroostook Superior Court.

CARIBOU, May 8.—The first term of the Superior Court for Aroostook county was held at Caribou, Tuesday, the 4th inst. There was a good number of the legal fraternity present, and though there were no trials of causes, there were 128 new cases entered and two indictments found. The court adjourned finally Thursday, its session lasting only three days. The expense to the county for this term is $300 instead of $1500, as some prophesied it would be. Judge Robinson presides with much dignity and urbanity. He will make a very good and popular judge. All speak very high in praise of the enterprise of the citizens of Caribou in providing so good and convenient a place to hold the court. In a word, everybody is convinced that it was the wise and just thing for the Legislature to do to establish a Superior Court for Aroostook county, and that Caribou is the right place in which to hold its northern terms.

Blaney's Case.

PORTSMOUTH, N. H., May 8.—George C. Yeaton of South Berwick, Me., attorney for Oscar E. Blaney, has been notified by Gov. Robie that the Governor and Council will give petitioners for commutation of Blaney's sentence a hearing at Augusta next week. It is thought here that commutation will be granted.

AUGUSTA.

The sixth annual convention of the contributors to the Maine Farmers' Almanac will be held at Hotel North, Augusta, on Wednesday, July 10.

BUCKSPORT.

Thursday afternoon two boys named Bert Hill and Charley Shute of Bucksport, were firing at a mark in a pasture, when a bullet went through Sylvester Snowman's barn, hitting a valuable mare, killing her almost instantly.

BATH.

(From Our Regular Correspondent.)

The offices of collector of taxes and city treasurer have been merged into one and the salary fixed at $1300. The present incumbent of the latter office has been elected to fill the dual trust. Whether he will accept or not is a question.

Capt. Guy C. Goss is in New York city on business.

Spring shad are to be had at 20 cents each. They are caught now in small quantities in drift nets in this river all the way from Phipsburg to Richmond. Five inch mesh nets are used. A salmon or two has been caught.

Mr. George Silvia and wife of Elgin, Ill., are visiting Bath friends. Mr. S. is employed in the watch factory, and his wife, *nee* Alice Farrar, Bath High School, '81, has many friends in this city.

The hopes of shipping men are on the Russian war.

FRYEBURG.

The April number of the "Academy Bell," published by the students of Fryeburg Academy, has just been published. It is one of the most interesting, perhaps, of any number yet published, containing many articles of intreest and worth.

KENT'S HILL.

Tuesday evening Miss Lillian Munger, under the auspices of the Adelphian Society, lectured on Michael Angelo.

Tuesday evening, May 12th, Mary A. Livermore will deliver her new lecture, "Wendell Phillips and His Times." The lecture will be given under the auspices of the three literary societies.

LEWISTON.

Another Lewiston man has gone, no one knows where. His name is C. A. Winn. In Ward 1, Lewiston, are his wife and children and a brother and family. Mr. Winn is a traveling salesman. The last heard from him was in October last. He wrote then that he was about leaving for Cleveland from Detroit. He was in the habit of writing quite regularly, but since then no message has been received from him.

POLAND.

For several years infringers upon the trade mark, Poland Water, have been leniently dealt with by the owners of the same until forbearance has ceased to be a virtue, and a suit was brought in the United States Circuit Court at Boston against an infringer about six or eight months ago. Judgment has been rendered in said suit, and a decree for an injunction entered against the party, with damages and costs.

RICHMOND.

Conductor Jewett says that a farmer explains how it happened that a plank was found across the track near this place just before the train came along, causing the despatch to be sent that an attempt had been made to wreck the train. It seems that the farmer desired to cross the track with a heavily loaded team. The plank crossing had been taken up as usual for the winter. He placed a plank beside the rail to ease the wheels over, which probably slipped and fell across the rails. He did not notice it at the time, and it was not found until the train came along.

SKOWHEGAN.

The Somerset Reporter says that the sum of $400,000 in cash and securities of the estate of the late Philander Coburn, has recently been divided among the heirs by Mr. Jackson, the administrator.

RANGELEY.

A Rangeley correspondent of the Farmington Chronicle writes: "Ice in Rangeley Lake has not gone, and the best judges say it will not until about the middle of May, and it was but a few days ago that we saw teams crossing the lake."

VASSALBORO.

Vassalboro has seven post offices and the statement has been published in several newspapeas that this is the larges number possessed by any town in New England. But Harpswell also has seven post offices, Boothbay seven, while Turner has eight.

IN GENERAL.

The water is falling rapidly in the Kennebec river, and lumbermen are very anxious about their drives.

The Governor has nominated Joseph S. Gray, Windsor, and J. S. Berry, Wayne, justices of the peace and quorum; Daniel Goldthwaite, pilot of the port of Saco.

A proposition has been made to organize a company with a capital of $75,000 to rebuild the Katahdin Iron Works. This capital will enable the company to erect works with a capacity of 500 to 600 tons per month, instead of 300 as formerly.

RIEL'S REBELLION.

The Strength of the Indians Underrated.

A General Uprising and Bloody War Unavoidable.

WINNEPEG, Man., May 8.—Indian agent Ray at Battleford, arrived here last eve with an escort of 25 men. He thinks all the Indians will be up in arms and that a bloody war is unavoidable. The government he says, entirely underrates the strength of the Indians and the seriousness of the situation. He thinks the whole country will be aroused in no time and all the tribes be on the war path. He did not consider that Factor McLean and the other white captives had any chance of escape. They might be alive yet, but would be sure to be murdered after the first battle took place, in which Big Bear was interested.

VESSELS OVERDUE.

Eight Steamers, Two Barks, and One Schooner Anxiously Waited for at New York.

NEW YORK, May 8.—Six vessels are reported missing, two steamers, three barks and a schooner. Of these four are British, one Norwegian, and one Spanish, and their crews consisted of over 100 men, who are probably all lost. The steamship Apollo, Capt. Steel, sailed from Glenfuegos Jan. 10, for Cadiz; she has now been out 92 days, during which time she has not been heard of.

Bark David G. Worth, Capt. Williams, sailed from Wilmington, N. C., Jan. 6th, for Liverpool, and it is feared she has foundered, as she has now been out 118 days.

Steamship Hunmer, Capt. Lawson, sailed from New York, Feb. 15th, for London, and has been out 80 days. She has been given up as lost. Her cargo consisted chiefly of grain.

Bark Nardevskyold left Bremen, Dec. 23d, for New Orleans, and she is supposed to have foundered.

Bark Northern Chief sailed from New York Jan. 17th, for Antwerp, with a cargo of oil, has not since been heard of, and has now been out 107 days.

Schooner Ottawa sailed from Lunenberg, N. S., on Feb. 3d, for Jamaica, and has not since been heard of.

Steamships Effective, from Trieste, April 1; Gulf of St. Vincent, from Trieste, April 2; Viola, from Shields, April 23; Holland, from London, April 23; Helvetia, from Liverpool, April 23: all are overdue.

WASHINGTON.

Appointments by the President.

WASHINGTON, May 8.—The President today appointed George V. N. Lathrop of Michigan, to be Envoy Extraordinary and Minister Plenipotentiary to Russia.

Boyd Winchester of Kentucky, Minister Resident and Consul General to Switzerland.

John A. W. Thompson of New York, Minister Resident and Consul General to Hayti.

A. P. Swineford of Marquette, Mich., Governor of Alaska. (Swineford is editor of the Marquette Mining Journal, has served as a member of the Legislature of his State, and was a candidate for Lieutenant Governor two years ago.)

Minor Matters.

President Cleveland will hereafter receive no callers Saturday. He finds it necessary to devote at least one working day of each week to the transaction of public business without interruption.

IN A FIELD OF ICE.

The Obstacles Encountered by the Polynesian—Her Arrival at Halifax.

HALIFAX, N. S., May 8.—The Allan mail steamer Polynesian with 900 sculs aboard, which left Liverpool 15 days ago for Montreal, was unable to force its way through the ice in the Gulf of St. Lawrence, and arrived here at three o'clock this morning to land passengers and recoal. Captain Ritchie reports heavy northwest weather during the entire passage. On Sunday, May 3, he met a heavy field of ice 50 miles southeast of Cape Ray. He headed east and got clear of it. The next day he skirted a field of ice to St. Georges Bay, and, finding the gulf full of ice, returned to Cape Ray. On Wednesday he tried to get north, but the gulf was blocked with a heavy field of ice, and the passages to the west and southwest were full of ice. Not willing to risk 900 lives and the ship in such proximity to danger, he headed for Halifax. He saw no sign of the Sarmatian or other steamers. Among the Polynesian's passengers was Lieutenant General Lord Alexander Russell, commander in chief of the British forces in North America.

THE FISHERIES.

Work of the Southern Mackerel Fleet.

GLOUCESTER, Mass., May 8.—The Southern mackerel fleet numbers 195 sail—90 from Gloucester, 25 from Portland, 11 from Boston, 9 from Boothbay and 60 from eighteen other fishing ports. Some of the number have done nothing at all, and only three or four at the most have paid their way, although the catch has been unusually large. Outside of one or two vessels arriving early upon a bare market, the entire catch this season must greatly exceed the stocks.

Another Victim of the Lemont Strike.

LEMONT, Ill., May 7.—John Polack, a striker, who received a bayonet wound in the abdomen during the skirmish Monday, has since died. The news of another death seems to cast a gloom over the strikers, instead of exciting them to renew the trouble.

NOT ARBITRATION,

But a Respectable Means of Terminating an Incident,

Is a Russian Paper's Explanation of the Proposed Settlement of the Trouble.

Current Rumors of a Continued Russian Advance.

M. De Giers' Note to Earl Granville Not Satisfactory to England.

LONDON, May 8.—Rumors are current in Paris of a steady and continued Russian advance in Afghanistan, but it is impossible to trace them to any authentic source. They have probably originated from the news of the Russian occupation of Penjdeh. The official news agency in Paris, which is supposed to represent the views of the French Cabinet, publishes a London despatch dwelling on the fact that throughout the dispute Germany has given no indication of the attitude she intends to assume regarding the controversy. The despatch says that the German ambassador in London still holds as pessimistic a view of the situation as when everything looked desperate, and that the English officials still fear that Germany is unfavorably disposed toward England, and is not anxious to see peace. The Times continues to urge the government to persuade the Ameer to allow the presence of an English garrison at Herat. The announcement in the St. Petersburg Official Messenger is expected to have a tranquilizing effect, as being the first intimation by Russia that she will send a commission to meet the English commission.

The conference between Earl Granville and Baron De Staal, arranged to be held yesterday at the Foreign Office for the purpose of formally opening the discussion on the delimitation of the Russo-Afghan boundary, is postponed, as Baron De Staal is awaiting communication on the subject from St. Petersburg. Negotiations continue on the demand of Earl Granville that Russia's assurances that her troops will not advance to Herat shall take the form of a treaty. It is reported that M. De Giers maintains that the simple expression of such intention is a sufficient pledge. General Zolenoy has been recalled from Tiflis to St. Petersburg to assist in the delimitation inquiry. M. De Giers has instructed General Komaroff to prepare a detailed report, with charts, of the advance on Penjdeh, as a basis for reference to an arbitrator.

Many members of the House of Commons think the recall of Sir Peter Lumsden forms part of the agreement between England and Russia, the telegram ordering him home having been sent the day after the receipt of Russia's reply. It is reported that the attitude of the British government is partly due to the receipt of a report from General Sir Donald Stewart, the commander of the Indian forces, that it would be imprudent to undertake an expedition to Herat until a railway has been completed to the Pisheen valley, which will take three years. M. Lessar, the Russian boundary commissioner, had a conference with Earl Granville yesterday with respect to the delimitation of the Russo-Afghan frontier. An arbitrator has not yet been chosen.

The Daily News says it is able to state that Earl Dufferin warmly approves the settlement that has been made by England and Russia, as will appear from papers which are about to be laid before Parliament. The News also says that the prospect of peace will not affect the budget. The money will be devoted to the work of increasing the navy, and any residue will be applied to the sinking fund.

A despatch from Bombay says a feeling of great serenity prevails there at the prospect of the avoidance of war, and that there is no danger of the loyalty of the natives being impaired. War, the despatch states, would retard the internal reforms introduced by Lord Ripon. Advices from Cabul state that the Ameer of Afghanistan has informed his ministers of his intention to strongly fortify the frontier when the delimitation has been perfected.

A St. Petersburg despatch says: Colonel Zakrjefski's report of the battle of March 30 is identical with that of General Komaroff. He admits that the Afghans were armed with poor rifles, but says that their guns were better than those of the Russians. He asserts that the Afghan force numbered 5,000 men, while there were only 1500 Russian troops. He brings with him two captured Afghan standards. The colonel is the hero of the day. Admiral Popoff has been intrusted with the defence of the Black Sea ports.

LONDON, May 8.—A despatch from Calcutta to the Times says: "The news of the peace arrangements has created dismay here, and peace so obtained is considered dangerous and humiliating. The reports which reach here from the northwest provinces and from Afghanistan agree in representing the vacillation of the ministry as ruinous to British prestige."

In the House of Commons this afternoon Sir Stafford Northcote gave notice that he would on Monday move that the House is entitled to the fullest knowledge of the government's action in regard to the Afghan dispute, and the uses to which the £11,000,000 to be voted are to be put.

Gladstone gave notice of a proposal by the government of a marriage dowry for Princess Beatrice, who is to be wedded shortly to Prince Henry of Battenberg.

ST. PETERSBURG, May 3.—The Moscow Gazette, with reference to the submission of the Afghan frontier difficulty to arbitration, says: "It was only possible to permit the correctness of our action to be certified by a third party. Such a course as this is not arbitration in any proper sense of the term, but simply a respectable means of terminating an incident."

The Novoe Vremya and the Novosti express great pleasure that Sir Peter Lumsden, who they say made all the mischief, has been recalled to London.

NEW YORK, May 8.—The Evening Post's London correspondent telegraphs: "I have unquestionable authority for stating that Russia has categorically declined to make any treaty binding her not to advance on Herat."

LONDON, May 8.—Baron De Staal, Russian ambassador, imparted to Earl Granville today the substance of a note from M. De Giers with reference to the basis of the Afghan frontier negotiations. It is reported the note is not satisfactory to the British government. The conference on the frontier question will be held Tuesday. The differences between the two governments as to the terms upon which the question shall be referred to the arbitrator are becoming greater.

The statement of the Official Messenger of St. Petersburg that the dispute will be submitted to arbitration only in case of necessity, is semi-officially declared to be inaccurate.

Earl Granville, in his discussion with Baron De Staal, holds that Russia's acceptance of arbitration must be absolute.

Uncertainty was the prevailing feature in the stock market to-day. The market opened dull on renewed rumors of the resignation of Lord Dufferin, and operators were not disposed to speculate in view of the present state of uncertainty. Meanwhile the approaching fortnightly settlement restricts business.

PARIS, May 8.—The stock market to-day was generally depressed and lower.

BERLIN, May 8.—The stock market to-day was weak throughout, with a downward tendency.

THE OLD WORLD.

Earl Dufferin Has Not Resigned.

LONDON, May 8.—The report published in the Morning Post that Earl Dufferin had resigned as Viceroy of India is pronounced by government officials to be utterly untrue.

BOMBAY, India, May 8.—There is not the slightest foundation for the rumors of Earl Dufferin's resignation.

Vote of Censure.

LONDON, May 8.—In the House of Commons today, Sir Stafford Northcote gave notice that when the consolidated fund bill comes up for its second reading, he will move a fresh vote of censure. The wording of this motion will be substantially as follows:

"Resolved, That the house having shown its readiness to vote supplies, will refuse to assent to a vote of £11,000,000 until it has been informed of the government's present policy and of the purpose to which the money granted is to be applied."

LONDON, May 8.—Conservatives will muster their full strength in the House of Commons Monday to the support of Northcote's motion of censure.

The Anglo-German Commission.

LONDON, May 8.—The Anglo-German International Commission appointed to arrange the terms of occupation of the British and German colonies in the Pacific Ocean, has concluded its labors. It is arranged that the British subjects shall be on a perfect equality with those of Germany in New Guinea and in the adjacent colonies.

REMINDER OF 1871.

Extensive Conflagration in Chicago Lumber Yards.

45,000,000 Feet of Lumber Burned—Loss $700,000.

CHICAGO, May 8.—Shortly after noon today, a spark from a locomotive set a fire in the heart of the great pine lumber yard district which lies along both sides of the south branch of the Chicago river and near the southwestern city limits. A fierce wind was blowing and the flames spread with great rapidity. The entire fire department was called out, but the 20 or 30 streams of water thrown upon the flames had little effect. News of the fire spread rapidly to the business centre of the city, and created much alarm lest the fire should assume proportions approaching those of the great conflagration of 1871, which came from the same direction. Great brands were carried forward by the wind setting fire to new piles, and several steamers and the men running them had narrow escapes from destruction. Starting upon the west of the river the flames consumed all the lumber between 35th and 38th streets, an area of about 400 by 2,000 feet. It also set fire to a canal boat moored at the dock, and the boat floated across the river and set fire to the lumber on the east bank, which covered about an equal area, and this, with one or two planing mills, was consumed. Brands were carried eastward and set fire to several small frame houses occupied by employes in the lumber district. The fire department however, made a stand at this point, and succeeded in preventing the spread of the flames into the residence district.

The fight continued throughout the afternoon, and it was nearly 7 o'clock before the conflagration was brought under control, having practically burned itself out to the limits of the immediate district in which it began. A heavy rain during the most of the afternoon was of material assistance. The aggregate of the lumber destroyed was 45,000,000 feet, and was valued at $700,000. The aggregate insurance is about $500,000.

The fire in the lumber district destroyed completely the stock of three large lumber firms, involving a loss, it is believed of nearly $2,000,000.

WORK OF THE WINDS.

Fierce Tornado at Newmarket, Ala.—A Church and Other Buildings Demolished

CHATTANOOGA, Tenn., May 8.—A terrible tornado swept over the town of Newmarket, Ala., yesterday, and left a path of devastation in its track. About dark a cloud of inky blackness passed over the town, when suddenly a loud roar like the rush of many waters was heard, and the fearful hurricane came upon the place. Its track was narrow, but it swept everything before it. First in its track was a large church and Masonic temple. It was picked up and blown into atoms, the timbers flying in all directions. The largest store in the town was next blown from its foundation, and parts of the timber found a mile and a half away. The goods were scattered indiscriminately. Two other stores were also blown into bits, and a large number of houses were unroofed, trees uprooted and fences blown in all directions. The tornado left the earth a short distance beyond the town.

Destruction and Loss of Life by a Blast in Indian Territory.

LITTLE ROCK, Ark., May 8.—Reports from Indian Territory state that one of the most fearful storms ever known in that section occurred near Mount Scott on the 5th inst. It began in the evening, with a southerly wind, with a force of 80 miles an hour, and increased through the night, with terrific thunder and lightning and a driving rain. The forest for miles was swept away by the wind, and the destruction of everything in its broad path is complete. In localities farther north the destruction of cabins and dugouts, occupied by cattle herders, is reported, and several lives are said to have been lost.

TORONTO, May 8.—At a large meeting held here yesterday to test the feelings of citizens on the question of the federation of the empire a resolution was passed that it is expedient that a chosen union of the several members now composing the empire be effected. THE PRESS.

SATURDAY MORNING, MAY 9.

We do not read anonymous letters and communications. The name and address of the writer are in all cases indispensable, not necessarily for publication but as a guarantee of good faith.

We cannot undertake to return or preserve communications that are not used.

New York with its tenement houses has no time to think of the cholera.

Senator Eustis believes in sticking to the old motto of the South, "Agin the Gover'ment."

Secretary Whitney and John Roach are still quarreling over the Dolphin. The trouble is not so much with the Dolphin as it is with Mr. Roach, who is not a Democrat.

The best way of disposing of Keiley would be to make out a commission as minister plenipotentiary with the name of the court in blank, and send him abroad in search of some government which will take him. Possibly on the Dark continent he may find such a government.

Between the snarling spoilsmen who says that Cleveland is Mugwumping too much, and the important Independent who says that he is Democrating too much, the President probably thinks that even his duties as sheriff were pleasanter than they are now.

This has been a great year for coming down on legislatures, but nothing has been said quite so bad as the following from the Cleveland Leader—perhaps because nothing has been so deserved:

"Ohio's demoralized and demoralizing Legislature went out yesterday in a blaze of farewells and delirium tremens."

"An English Journalist," visiting this country, expressing his surprise and sorrow in the New York Times that the people here do not love England. The only explaination he can think of for this lack of affection is that Americans are jealous of his native land. The Englishman must think hard and think of something else. The American people are not jealous of England, first because the two counaries are not rivals and second because the present condition of England is such as to provoke pity rather than envy.

The Democratic platform on the civil service question is explained by the following paragraph from the Boston Post:

"Republican officeholders should go. They may be good men in themselves, but they represent a bad party."

Admitting all the Post says and taking into consideration all that has been done, no other conclusion can be drawn than that the basis of this long talked-of reform is to remove good men from posts of trust because they belong to a so-called bad party to make room for bad men because they belong to a so-called good party.

The party of Illinois Democratic legislators who have been on a junketing excursion to the New Orleans exhibition will return sadder if not wiser men. While they have been gone a Republican has been elected in a district overwhelmingly Democratic because the brethren felt so sure of success that too many of them deemed it unnecessary to go to the polls, and now the Republicans have a clean majority in the legislature. The Republicans now have the power of ending the contest and it is to be hoped that no dissenions among them will prevent their using it.

There is going to be a great array of talent in Washington next week, according to the Boston Post. Col. John R. Lynch, Democratic candidate for Congress in the fourth district of Maine, who was buried beneath 5,000 majority, is already there; Judge Redman is on his way, and the Hon. J. P. Bass and the Hon. Nathan Cleaves will start in a few days. Gen. Harris M. Plaisted is also expected. When all of them arrive a consultation will be held for the purpose of devising some scheme for the purification of the government. Judge Cleaves will probably bear that letter in favor of Mr. Brabbury which a Portland correspondent of the Boston Post said he was going to write. It will be too precious to commit to the mails.

The Fairfield Chronicle, edited by Benjamin Bunker, delegate to the Democratic National convention at Chicago, has apparently not yet "caught on" to the latest Democratic dodge. Here it is speaking of Major Shorey of the Bridgton News as a "temperance crank who holds a fat position in the Portland cutom house, all for temperance." The Argus just now is treating Major Shorey and all other temperance reformers, even Gen. Neal Dow, with the greatest consideration. Tabulator Chase, who by the way attended the non-partisan temperance meeting at City Hall on Thursday night, ought to take a run down to Fairfield and see the Chronicle. He kept Mr. Bunker in line at Chicago; he ought to be able to keep him in line in Maine.

Another Reform.

From time to time the PRESS has adverted to the noteworthy reforms which the Administration has been making in this corruption honeycombed government of ours. It has duly chronicled the fact that the President eats his breakfast at 8 o'clock in the morning, which is half an hour or less earlier than other Presidents have done since the days of Jeffersonian simplicity. It has recorded, we believe, with proper solemnity, the fact that the President has swapped all the official banged tailed horses for long tailed horses; that he has saved the country as much as $2500 a year by discharging a few clerks whom he thought he could get along without at the White House; that he has introduced a system of electrical call bells in the executive mansion; and that he has discovered up in a New York village a rascally postmaster, who did not pay so close attention to his office as he ought, and whom he summarily ejected, accompanying the removal with a letter calculated to excite the admiration of the country at the minuteness of inspection which the President was making of the offices. This brilliant galaxy of achievements in the way of purifying the government and bringing it back to the days of Jeffersonian simplicity when horses tails were not banged, it is clear to see has aroused the wildest enthusiasm among the reformers of the country. There has been at times, to be sure, a dimming of the lustre of these achievements by the appointment of such men as Higgins, whom the civil service reformers of Baltimore denounced as a ballot box stuffer and political bummer, and Tabulator Chase, but it has been only temporary, for it has been quickly shown that the President was deceived by some wicked Democratic congressman like Patrick A. Collins, and therefore was not in the slightest degree to blame. Of course the full light of the reform luminary now shut up in the White House has not yet fallen upon our benighted country. Its full effulgence would be too dazzling. It is allowed to escape by degrees, so that the eyes of the people may become accustomed to it gradually.

Within the past fortnight a new ray has been emitted. The administration has decreed that Democratic doctors shall constitute the majority of all boards of pension examiners. At first glance this does not look like reform perhaps, for the work of determining the nature and extent of physica disability would seem to be so remote from politics that the office of pension examiner might properly be consigned to the category mentioned in Mr. Cleveland's letter as not requiring to be filled by men in sympathy with the administration. The fact doubtless is, however, that the administration is about to introduce a new departure in medical science and fears that doctors who are not political sympathizers may be disposed to look coldly upon it. Our confidence in the sincerity of the reform professions of the administration is such that we feel entirely certain that some reform is to be introduced into the method of determining whether a man is blind or deaf or lame quite as important as that introduced into the method of making up the public debt statement. There of course will be men in the community, so blinded by prejudice, as to characterize the change in the pension boards as made for no higher purpose than to fill the "hungry and thirsty" Democracy. But great reformers have ever been misunderstood and misrepresented.

THE MRS. MICAWBER OF THE PERIOD.
N. Y. World.

Evidently the Mugwumpian party, led by the Evening Post of this city, means to be the Mrs. Micawber of the period—the scrawny, half starved Emma who clung to the oleaginous Micawber, and whose perpetual asseveration was that she "would never desert him." Especially was this her "great hold" when the prosperous W. M., with his pockets full of money was about to begin a new life in Australia, where he could not only take good care of Emma but provide places for the children. Her devotion to him then was simply intense, and Mrs. Micawber was willing to let the whole of her family go to the blazes while she went to the end of the world even with Micawber. The Mugwumps will not desert the Democratic party, tearfully sobs the Evening Post, so long as it has an office at its disposal.

General Grant's Book

The Hard Work He Does Upon it—A Letter From the General.

A New York despatch states that General Grant has done much toward completing his book during his convalescence, and expects to finish it within the next few days. The first volume is written and revised. Only about 100 pages are needed to complete the second, though only a portion of it has been revised. The story of Lee's surrender was finished Tuesday and revised. The general's connection with Lincoln's assassination has been related. He writes little himself, but dictates to a stenographer. Not only is his mind clear, but the story as he dictates is lucid and requires but little revision. His daily average is about 30 pages, and the work apparently fatigues him little if any.

General Grant sent the following letter to his publishers:—

NEW YORK, May 2, 1885.

To Charles L Webster & Co:—

Dear Sirs,—My attention has been called to a paragraph in a letter published in the World newspaper of this city, of Wednesday, April 29, of which the following is a part:—

"The work upon his new book, about which so much has been said, is the work of General Adam Badeau. General Grant, I have no doubt, has furnished all of the material and all of the ideas in the memoirs as far as they have been prepared, but Badeau has done the work of composition. The most that General Grant has done upon this book has been to prepare the rough notes and memoranda for its various chapters."

I will divide this into four parts, and answer each of them. First—"The work upon his book, about which so much has been said, is the work of General Adam Badeau." This is false. The composition is entirely my own. Second—"General Grant, I have no doubt, has furnished all of the material, and all the ideas in the memoirs, as far as they have been prepared." This is true. Third—"But Badeau has done the work of composition." The composition is entirely my own. Fourth—"The most that General Grant has done upon this book has been to prepare the rough notes and memoranda for its various chapters." This is false. I have not only prepared myself whatever rough notes were made, but, as above stated, have done the entire work of composition and preparing notes, and no one but myself has ever used one of such notes in composition. You may take such measures as you see fit to correct this report, which places me in the attitude of claiming the authorship of a book which I did not write, and is also injurious to you who are publishing and advertising such books as my work. Yours truly,

U. S. GRANT.

THE ROYAL AN Ammoniacal AND Short Weight Baking Powder

VIEWS OF THE STATE CHEMIST OF MAINE.

I have procured in our open market and analyzed samples of CLEVELAND'S SUPERIOR BAKING POWDER, and the ROYAL BAKING POWDER.

CLEVELAND'S POWDER I find to be composed of good, pure, wholesome materials properly combined for producing the maximum of gas, AND IT IS IN EVERY RESPECT A HEALTHFUL AND DESIRABLE ARTICLE.

The ROYAL BAKING POWDER I find to be more complicated in composition, and while the material it is made from is fairly good, it contains one ingredient that should not enter into the composition of any baking powder, namely: CARBONATE OF AMMONIA. This is a strong alkali, UNFIT FOR HUMAN CONSUMPTION, and I am surprised that this chemical should be used when it is so well known to be INJURIOUS TO HEALTH IN ANYTHING USED FOR FOOD. In comparison there should be no hesitation in choosing Cleveland's Baking Powder for purity and wholesomeness.

Cleveland's Powder gives off its gas slowly and evenly, while the Royal passes off much quicker. It is perhaps needless to say that in this respect the Cleveland Powder has the advantage.

The samples of the Royal Powder, which I have carefully weighed, are almost invariably short weight, from 1-8 to 1-2 oz., while the Cleveland Powder holds full weight.

Ladies, Read This, as it will Benefit One or More of Your Friends.

Any Lady suffering from Internal Disease, even if so reduced that an operation is refused her by her own surgeon and all hospitals, can have a bed assigned to her at

MURDOCK'S FREE HOSPITAL.

The Staff of the Surgical Hospital at No. 30 Leverett street, Boston, is in attendance daily from 9 to 10 A. M., except Saturdays and Sundays.

We do this to show the value of raw food, which our liquid food is, condensed and free from insoluble matter, which enables us to save life when all other foods and treatments fail.

We have never lost a case from shock following an operation, even of the many that we have operated on, that other hospitals and surgeons have refused, *and we have never kept a woman over three weeks prior to an operation*, and never gave over a tablespoonful of our Liquid Food four times daily; that quantity in thirty days will make ten pounds of new blood (the system contains from 26 to 28 pounds), proving that we can build up any case so that they can be not only operated on successfully, but that a relapse never follows an operation when our Liquid Food is used.

And when other foods are available, we can show that with Liquid Food we can build up a patient in half the time usually required.

If a lady prefers her own physician or surgeon, she can have him by paying his fees, or any surgeon can have a bed assigned him for a private case (we not paying them for their attendance) but will care for and nourish the patient before the operation, if needed, and after it until they are restored to health.

We challenge such results without the use of Murdock's Liquid Food.

Every institution that uses Murdock' Liquid Food reports the same results, be they on infants, children or adults.

BOSTON CHILDREN'S FRIEND SOCIETY,
48 RUTLAND STREET,
BOSTON, March 23, 1885.

GENTS:

In our Home of eighty children do not know what we should have done without your Liquid Food. We have several now that we feel we cannot care for in any other way than by using it.

Yours very gratefully,
E. H. PERKINS, Matron C. F. S.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

Boarding, Livery and Hack Stable.

HAVING enlarged my stable at 101 Clark St., I wish to call the attention of gentlemen in that vicinity to my superior accommodations for Boarding Horses. My Carriage House being detached from the stable, renders it impossible for any scent or steam from the stable to reach the Carriages, a fact worth the consideration of those having nice carriages.

Wit and Wisdom.

Rubby stubbed his toe and came in crying to his mother. "There, there, Rubby," she said after she had ascertained that the injury was trifling, "you are too big a boy to cry over a little thing like that." "B-but what a-am I to do, mamma?" he asked, sobbingly; "I ain't big enough to s-swear."

THE BOOK REVIEWERS throughout the country have been very busy the past few weeks in examining the new edition of the "Science of Life." The criticisms are all one sided, that is to say, they are all in high praise of this justly celebrated medical work. The book is advertised in this paper.

The late Thomas Carlyle undoubtedly possessed the popular homage. A stranger on the box of an omnibus, seeing the historian get in, observed that the "old fellow" had "a queer 'at." "Queer 'at!" answered the driver. "Ay, he may wear a queer 'at; but what would you give for the 'ed piece that's inside of it?"

Aaron's Antidote, the only Asthma Cure that gives entire satisfaction, can be had of J. W. Perkins & Co. Ask your druggist to get you a bottle.

The teacher asked the small boy the nature of his father's occupation. He hesitated and seemed reluctant to answer. "Come, Johnny, you must tell me your father's business. It's the rule." Very slowly came the reply: "He's the bearded lady in the Dime Museum three times a week."

The absolute purity of the Congress Yeast Powder can be relied upon. It has stood the test of nearly two score years, and never has been found wanting.

FINANCIAL AND COMMERCIAL

Portland Daily Wholesale Market.

PORTLAND, May 8.

The Flour market is decidedly firmer, due to a further rise in wheat. The latest crop reports are very bad for winter wheat, and this alone will strengthen the market and cause higher prices at an early day. The decrease in area and damage done by "winter-killing" seems to be general in all the winter wheat States with but one exception, that of Michigan. That State reports but a slight decrease in acreage sown, and no winter-killing whatever or damage of other kind. With this one exception the loss to the winter wheat States is the greatest ever known and will prove a serious blow to many of the States that depend largely upon their wheat product. Sugar is more active and firmly held at yesterday's advance. Pork products are quiet and unchanged. Cheese about the same here, but off at Liverpool to 5ŝ.

EXZEMA OR SALT RHEUM.

Another Clear and Positive Recovery—An Elderly Lady's Letter.

Among the numerous letters received by Dr. Kennedy testifying to notable SALT RHEUM cures, the following will be found of interest to our readers, who may accept our assurance of its perfect authenticity and truthfulness:

WORCESTER, Mass., March 23, 1884.

Dr. D. Kennedy, Rondout, N. Y.

DEAR SIR: Until recently I have been for three years a sufferer from Salt Rheum. It followed upon an attack of Erysipelas, for which I was for a long time under medical treatment. I placed myself again in the hands of the physicians who did. I care no doubt, all that could be done. One thing is sure, however, I was none the better for all the medicine they gave me. The painful and unsightly disease made continual progress, until I began to fear I should never get rid of it.

By means of one of those accidents that often result in so much blessing I had my attention called to your FAVORITE REMEDY, which I was told would surely do me good. I used it, and within a much shorter time than I would have believed possible, I received a permanent cure. I am now perfectly free from Salt Rheum. What a comfort this is, and how it places your wonderful medicine in my opinion, you may guess at, but never know. I keep it now constantly in the house as a family medicine.

Yours truly, MRS. DINAH PHAIR.

Mrs. Phair sometime since, when on a visit to Kansas, found a case of Salt Rheum, could not get FAVORITE REMEDY, sent to New York City for it, and cured the case.

For all diseases of the Blood, Liver, Kidneys, Bladder and Digestive organs Dr David Kennedy's FAVORITE REMEDY, Rondout, N. Y.

MALARIA.

As an anti-malarial medicine

DR. DAVID KENNEDY'S

FAVORITE REMEDY

has won golden opinions. No traveler should consider his outfit complete unless it includes a bottle of this medicine. If you are exposed to frequent changes of climate, food and water, Favorite Remedy should always be within your reach. It expels malarial poisons, and is the best preventative of chills and malarial fever in the world. It is especially offered as a trustworthy specific for the cure of Kidney and Liver complaints, Constipation and all disorders arising from an impure state of the blood. To women who suffer from any of the ills peculiar to their sex Favorite Remedy is constantly proving itself an unfailing friend—a real blessing. Address the proprietor, Dr. D. Kennedy, Rondout, N. Y. $1 bottle, 6 for $5, by all druggists.

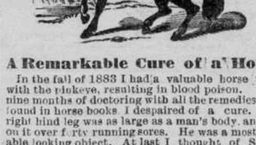
PINKEYE.



A Remarkable Cure of an Horse.

In the fall of 1883 I had a valuable horse taken with pinkeye, resulting in blood poison. After nine months of doctoring with all the remedies to be found in horse books I despaired of a cure. His right hind leg was as large as a man's body, and had on it over forty running sores. He was a most pitiable looking object. At last I thought of Swift's Specific, and concluded to use it. I used fifteen bottles. In August last, all symptoms of the disease disappeared. There have been no signs of a return, and the horse has done a mule's work on my farm ever since. JAMES L. FLEMING, Augusta, Ga.

in time. Kidney diseases may be prevented by purifying, renewing, and invigorating the blood with Ayer's Sarsaparilla. When, through debility, the action of the kidneys is perverted, these organs rob the blood of its needed constituent, albumen, which is passed off in the urine, while worn out matter, which they should carry off from the blood, is allowed to remain. By the use of Ayer's Sarsaparilla, the kidneys are restored to proper action, and Albuminuria, or

Bright's Disease

is prevented. Ayer's Sarsaparilla also prevents inflammation of the kidneys, and other disorders of these organs. Mrs. Jas. W. Weld, Forest Hill st., Jamaica Plain, Mass., writes: "I have had a complication of diseases, but my greatest trouble has been with my kidneys. Four bottles of Ayer's Sarsaparilla made me feel like a new person; as well and strong as ever." W. M. McDonald, 46 Summer st., Boston, Mass., had been troubled for years with Kidney Complaint. By the use of Ayer's Sarsaparilla, he not only

Prevented

the disease from assuming a fatal form, but was restored to perfect health. John McLellan, cor. Bridge and Third sts., Lowell, Mass., writes: "For several years I suffered from Dyspepsia and Kidney Complaint, the latter being so severe at times that I could scarcely attend to my work. My appetite was poor, and I was much emaciated; but by using

AYER'S Sarsaparilla

my appetite and digestion improved, and my health has been perfectly restored."

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays the pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

The King of Floor Cloths.

The new and artistic designs brought out this season in "LINOLEUM" will give this popular article an increased sale. It is the only floor covering combining in the highest degree the qualities essential to comfort, elegance and economy. Inferior foreign imitations are on the market, but the superiority of the American is beyond controversy. All carpet dealers keep it.

European travelers should congratulate themselves that the British Government has not taken up all the crack steamers in the Atlantic trade. Chief among the few left is the unrivaled "CITY OF ROME," the largest and most comfortable steamer afloat, which is advertised to sail from New York every fourth Wednesday throughout the season.

THE GREAT POPULAR REMEDY OF THE DAY for coughs, colds, asthma and all lung difficulties is Adamson's Botanic Balsam. Inexpensive, reliable, pleasant to take, cures as by magic, and gives universal satisfaction. A trial is the best testimonial. Price 35 cents. Trial size 10 cents.

BEFORE JUDGE HASKELL.

(Reported for the PRESS.)

WISCASSET, May 7.

There being no further business for the jurors, they were excused finally this morning.

The hearing in the case of Mary E. Emerson vs. Josiah Bean, John C. Tripp, and the Edgecomb Mica Company, in equity, was resumed. The testimony in this case was presented by deposition, and the hearing of the evidence and the arguments occupied nearly the entire day. Decision reserved.

G. B. Sawyer. N. & J. A. Morrill.

This afternoon, resolutions in respect to the memory of the late Benjamin I. Smith, who was a member of this bar, were presented by Hon. R. K. Sewall, on behalf of the committee appointed by the bar. Brief, but appropriate remarks were made by Mr. Sewall, County Attorney Partridge, G. B. Sawyer, Esq., Hon. Henry Ingalls, and N. M. Pike, Esq., and by the court. The resolutions were as follows: Resolved, That while we deplore the eminent existence of mortality among us, as we do every other catastrophe of life, hope and promise, in the premature blight of cultivated manhood, it is nevertheless a duty we owe to ourselves and our profession to make due record and hold in memory the social, professional salient virtues and abilities of our dead brother, remembering that to each of us a voice comes from the grave of the departed, "Be ye always ready; for in such an hour as ye think not the Son of Man cometh."

At the conclusion of the remarks the court adjourned for the day.

WISCASSET, May 8.

The court was occupied the greater part of the forenoon in the disposition of interlocutory matters. In the case of Virgle vs. Stetson, tried at this term, a motion for a new trial was filed and the case will go to the law court.

At noon the court adjourned finally, after a busy term of ten days. There were six jury trials, and no disagreement in any case.

THE TICKET AGENTS.

Meeting of the New England Coupon Association Yesterday.

The third meeting of the above association was held at the Falmouth Hotel yesterday, and was attended by representative coupon ticket agents from all parts of New England. The following is a list of those present:

O. F. Rawson, Worcester; G. W. Miller, Lowell; W. W. Jacobs, Hartford; F. L. Gunn, Springfield; E. G. Windsor, Providence; A. W. Benson, Bangor; E. H. Walker, Augusta; F. E. Crowley, Belfast; B. F. Eaton, Skowhegan; W. F. Bodge, Waterville; C. O. Benson, Lewiston; M. L. Williams, C. P. Waldron, J. M. French, S. H. Hellen, Portland; A. Dean, Woonsocket.

The association held its first meeting at Worcester last February and perfected an organization, under which the following officers were elected: President, O. F. Rawson, Worcester; vice president, F. L. Gunn, Springfield; treasurer, Ward W. Jacobs, Hartford; executive committee, president and treasurer, *ex officio*, A. W. Benson, Bangor; G. W. Wilder, Lowell; A. Dean, Woonsocket. A second meeting was held at Young's hotel in Boston last month. At the third meeting held here yesterday, considerable business of importance was transacted.

The object of the organization is for mutual benefit and protection against scalpers and those who under-sell established rates. The membership is confined to agents doing a western business, and does not include those men who are merely local sellers. Great difficulty is encountered by the association in getting a large attendance at the meetings. From the exacting nature of his duties a ticket agent finds it almost impossible to leave his post to attend the meetings of such an organization. In promoting friendships among the individual members of the profession, the association will supply a long-felt want. Heretofore, many ticket agents have followed the business for years in neighboring cities and not having an association to aid in bringing them together, have had no personal acquaintance.

In future, the meetings of the association will be held at the office of the Pathfinder in Boston.

Temporarily Insane.

Mr. Bodin returned on yesterday morning's Pullman with his brother, Mr. John Bodin, of the late firm of John Bodin & Co., groceries, who met with financial difficulties some time ago and went to Fredericton, N. B. There he acted so strangely at his hotel a policeman was called in and took him, and his little son who was with him, to jail for safety. When released he went all round town with his boy, taking things he fancied and giving them to strangers, and finally he led his boy all day long through the streets in a pouring rain, and at night tried unsuccessfully to drown himself by jumping overboard. Bodin evidently premeditated self-destruction, for before making his plunge he called at a newspaper office and ordered a copy of the paper forwarded to John A. Magnussen, Portland. He was anxious to know if everything that happened in the town was published in the paper. In jail next morning he cut the main artery in each wrist with a knife given him to eat breakfast with. The doctors had much difficulty in stopping the flow of blood.

Vaughan Street Sunday School.

At the annual meeting of this school, held Thursday evening, the following officers were elected:

Superintendent—Willis M. McDonald.
Assistant Superintendent—J. W. Harper.
Secretary and Treasurer—J. B. Lang.
Librarian—H. L. Winter.

The Secretary's report shows the school to be in a most prosperous condition. The school was organized three years ago with a membership of 50, and through the earnest efforts of the school, they now have a membership of 260. They have added to the library 100 new books during the past year, and by a vote it was decided to add the same number during the coming year. A vote of thanks was extended to the retiring superintendent for his faithful services.

A Queer Cruelty Case.

Isaac Abrams of this city relates a curious experience with a cruelty agent and a judge during a recent visit to Biddeford. Mr. Abrams drives a horse "in fair flesh" as a jockey put it: but the animal has two spavins. However, he does not go lame. Mr. Abrams was arrested by Agent Tarbox of Biddeford and brought before the judge of the police court. The judge fined the man $5 and costs for driving an animal unfit for use. But Mr. Abrams must go back to Portland so the judge after deciding the horse unfit for use gave the man a written permission to drive home to Portland, a distance of sixteen miles. Agent Sawyer saw the horse here and could not see where the cruelty to animals came in.

Gospel Mission Anniversary.

City Hall should be crowded tomorrow evening at the anniversary of the Gospel Mission. Sturdivant's orchestra of ten pieces will furnish the music, assisting a large chorus choir of the Sabbath School. Rev. S. F. Pearson will give his report of the work for the past year, and will be followed by short addresses by members of the mission. There will also be a baptism by immersion at the beach at the foot of Franklin street, at 8 o'clock a. m. The Lord's Supper in the mission at 10 1-2 a. m., and exercises by the Sabbath School children in the mission at 2 30 p. m., and a public meeting in City Hall in the evening. See advertisement in another column.

National Encampment.

E. W. Woodman, Post 18, East Wilton, has applied for quarters.

The Kansas delegation has been assigned to the City Hotel.

Harry Rust Post No. 54, Norway, wants quarters for 74 men.

Weld Sargent Post, No. 72, Boothbay, want quarters for 50 men.

Comrade Merchant of Minneapolis, chairman of Committe on Decoration last year, is in this city.

CITY GOVERNMENT.

Special Meeting of the Board of Mayor and Aldermen.

A special meeting of the Board of Mayor and Aldermen was held at 4 p. m. yesterday. All present.

PORTLAND RAILROAD CO.

The Mayor stated that one matter to which their attention was called was the relaying and rearrangement of their track by the Portland Railroad Company, and he would call on Judge Symonds to speak in regard to it. The company intend to take up the track on Congress street, relay it with new iron, new sleepers, and repave it. The company take the position that this is a rearrangement of their track and therefore they have the right to repave with the same kind of paving which they took up. The Mayor believed it would be better for the company to repave with square granite blocks. He said lawyers differed as to the rights of the city in the matter.

Judge Symonds said that under the charter of the Portland & Forest Avenue Railroad Co.—to which corporation the Portland Railroad Co. succeeded—the consent of the municipal authorities was required to warrant the company in laying their tracks through the streets. Years ago the company received a qualified consent from the municipal authorities to lay their tracks through certain streets. It was a conditional consent: 1st, that the company should keep in order and good repair all limits of the streets, between the rails, where they had single tracks, and also between the tracks where double tracks were laid; 2d, that the company should pave between the rails throughout the city.

The ordinance specifies for the paving, fair round cobble stones of average quality, until otherwise ordered by the municipal authorities, and it is on the construction of that phrase the opinion of lawyers differs. When the wooden pavement was laid in front of City Hall some years ago, this same question arose, whether the company must relay their track with cobble stones or conform to the new limits outside the track. At that time, as City Solicitor, the speaker decided that the company must conform to the orders of the municipal officers, and he had seen no reason to change the opinion then given. The city having granted the right to lay the tracks, the company was compellable, under proper order of the city, to conform to that order and change. They are answerable to any proper demands of the city.

Mr. Putnam took a different view, claiming that the company once having paved with proper pavement, as required, could only be required after that to keep track and rails in repair. Both Mr. Putnam and Judge Symonds admitted the doubtful construction of the ordinance, and that the rights of the parties could only be settled by the court, which has never yet had the question brought before it. At present the company is working according to the ordinance, and keeping within the law. If the Board should pass an order requiring the company to pave with blocks, then the question would arise.

Mayor Deering believed the question should be tested.

Alderman Russell read the order passed by the street committee, April 27th, giving the railroad company permission to repair the track on Congress street satisfactory to the street commissioner.

President Libby of the railroad company, didn't think that the company could afford to lay the granite blocks.

The Mayor thought some amicable arrangement could be reached.

Mr. Wood, of the company, said they agreed to relay Middle street with the blocks last year. Since then the company has had heavy expenses. Mr. Putnam's and he thought Mr. Libby's opinions in this matter before the Board differed from Judge Symond's.

Finally, a question was asked by Alderman Gallagher, if the matter could be brought directly before the Law Court, and Judge Symonds said yes if a proper agreement was made by the party losing to pay the bills.

The following order was passed:

Ordered—That the Portland Railroad Company shall, when required by the committee on streets, sidewalks and bridges, in relaying their tracks within the city, make the pavement of granite blocks instead of fair quality round paving stones as now required by Sec. 4 of the ordinance on railroads.

OTHER BUSINESS.

The bond of Peter O'Connor, liquor agent, was accepted and approved.

James McDonald was appointed special policeman without pay at Western cemetery and Patrick Kirwin at Eastern cemetery.

Petitions of John A. Roberts, Mrs. Hugh Doherty for licenses as victualers, granted, subject to favorable report.

Of John D. Leath, to erect a new wooden building at 52 Tyng street was referred with power.

Of J. G. McFarland for license as pawn broker, granted, subject to favorable report.

Of J. Braster & Co., for fish market on Peaks Island, granted, subject to favorable report of City Marshal.

Applications for licenses to store petroleum from Shaw, Hammond & Carney, C. McLaughlin & Co., W. W. Whipple & Co., and D. W. True & Co., were referred to Chief Engineer of Fire Department.

The petition of Loveitt & Co., was presented to keep a fish market at 528 Congress street. Judge Goddard appeared for the petitioners claiming that all sanitary arrangements had been compiled with.

Mr. Noyes rather doubted whether they had a right to grant the right to keep a fish market under a dwelling house.

Mr. Gallagher said that for his part if all sanitary conditions had been complied with he didn't see why one fish market should be allowed on a street and not others. Either any one should be permitted or none.

The Board adjourned until 12 o'clock today to view the premises before voting on the petitions.

FERRY FACILITIES.

Yesterday's Hearing on the Petition of the Portland and Cape Elizabeth Ferry Company.

The Harbor Commissioners gave a hearing yesterday on the petition of the Portland and Cape Elizabeth Ferry Company to erect a wharf at Ferry Village extending some five hundred feet from the shore, at a point a short distance to the east of the Merchants' Marine Railway. The commissioners met at the spot in the afternoon at 4 o'clock. The Ferry company, represented by C. W. T. Goding, its clerk, submitted a plan of their proposed wharf. The land on which they design to build extends 132.3 feet along the sea wall on Front street from the property of the Marine Railway to land owned by Mrs. Paulina Spear, from between those properties to low water mark, where the frontage is much reduced owing to the shape of Mrs. Spear's property, so that the lot is of a triangular shape with the outer corner cut off. The wharf is to be 500 feet long and placed far enough to the east of the railway wharf to allow sufficient room for dock purposes.

Mr. Wm. Spear appeared before the commissioners as the representative of Mrs. Spear and F. H. Harford, Esq., was present as attorney for the remonstrants. Mrs. Spear, through Mr. Harford, filed a list of objections to the granting of the petition. The objections declare that the proposed wharf cannot be built without passing over the land of the remonstrant; that the point of low water as maintained by the petitioners is not the point as fixed by numerous decisions of the courts; that the wharf of the railway was built before the establishment of the harbor commission, and is not constructed in accordance with the laws governing such cases.

Mr. Spear stated that as he understood the law and as he has been informed by his attorney, wharf property must be built at right angles with the direction of the harbor. Portland harbor extends southwest and northeast. Therefore all wharves built in this location should extend to northwest. The railway wharf, having been built prior to the establishment of this rule, tends to the northward, and as the new wharf is to be built parallel with the old, Mr. Spear thinks that it will extend through water into which he has the right to build.

Some discussion ensued as to the point of low water, Mr. Spear maintaining that it should be placed a number of feet farther out than fixed by the plans of the Ferry Company.

In answer to Mr. Spear, the company showed that the application of the rule quoted by him to the direction of a wharf he might build would entirely deprive them of access to their land.

In response to a question from the commission, Capt. Chase, representing the Marine Railway, stated that they had no objection to the building of the wharf.

The commissioners instanced cases where the law, as given by Mr. Spear, had been set aside by the courts. The hearing was then adjourned until Monday, at 2 30 p. m., at the office of Mr. C. H. Farley, at which time the commissioners will announce their decision.

The landing on the new wharf is to be at the outer end, and prior to its completion the ferry company will use the wharf of the marine railway.

Real Estate Transfers.

The following transfers of real estate in this county have been recorded at the Registry of Deeds:

Westbrook—H. Manchester to Arrilla E. Parkhurst, land. $175.

Natalia Secor to Marrin Dalcour, land. $250.

Yarmouth—A. S. Mitchell to D. McCartney, land. $750.

MUSIC AND DRAMA.

PIQUE.

The Boston Museum Company are well adapted to Augustus Daly's modern fashionable sensational drama of "Pique," and presented it in attractive shape at Portland Theatre last night. The story is, it will be remembered, that of Capt. Arthur Standish who Mabel Renfrew, a society belle, marries out of pique because Raymond Lessing jilts her. When Standish finds out that his wife did not marry him for love he leaves her at his father's house and returns to sea. A child is born in his absence, which is stolen by tramps in order that they may get a ransom from the child's grandfather, a rich mill-owner. But a servant in the house, an adopted waif, who knows the tramp ways, seeks their home, gets a message to the house revealing the child's hiding place, and thither the grandfather and mother hie, and not only rescue the child, but are rescued themselves by the police through the instrumentality of two Harvard students in love with Standish's cousin.

Miss Annie Clarke was the fascinating society belle, but it was as the indifferent wife, and later the loving and heart-broken mother that she had her strongest scenes. Mr. Barron was fully equal to the changes demanded by the part of Arthur Standish. The life of the piece was George Wilson, who portrayed in his ever-funny way the trials of Sammy Dompie, a young millionaire and Harvard student, who almost comes to the conclusion that there's not a woman living, who will be either his wife or his mother. His chum, Thorsby Gyll (George Parks), was always in his way in love affairs, and makes a fool of his simple friend on several occasions. Alfred Hudson, the father of Captain Standish, carried out well the teachings which his Puritanical beliefs demand. James Barrows was the matter of fact Dr. Gossitt. Two horrible looking objects were Charles Kent and James Bolan as the two tramps. They were veritable ragamuffins, their voices being in keeping with their make-ups. Blanche Thompson made a lovable Mary Standish, who submits resignedly to fate and sees the man she loves married to another. The rollicking, laughing, simple but faithful Raitch fell to the lot of Miriam O'Leary in the cast, and her success in the part was made at once. The piece would of course not have been complete without Mrs. Vincent—who was warmly received—as Aunt Dorothy, who was everybody's aunt. The remaining parts were well allotted.

The music by Grimmer's orchestra was a strong feature. The play will be repeated tonight.

NOTES.

Sir Arthur Sullivan, the composer, will start in June on a tour through the United States to California.

Mr. Henry Irving's decision to number and reserve the seats in the pit and gallery of the Lyceum Theatre in the same manner as in higher priced parts of the house is considered by the English a "remarkable innovation."

BASE BALL.

THE PORTLAND CLUB.

No changes will be made in the Portland team at present, and we are inclined to think that none is needed. The team as it stands at present is composed of players of ability, and with a week or so of good hard practice on grounds in proper condition they will make a showing which will astonish those chronic growlers who are always so ready to see the faults and so backward in praising the virtues. The Portland team has not had a fair trial, and no fair-minded person who understands base ball will claim that they have. Keep the team as it is, and if after a time there appears a weak place in the nine then change it; but don't condemn the club before they have had a chance to redeem themselves.

TODAY'S GAME.

In the game today, if the elements permit playing, Fish and Oxley will be the battery, and the positions will otherwise be filled as they were in the game at Brockton. The game will be one of extraordinary interest, and will be witnessed by all lovers of the sport. The game will be called at 3 o'clock.

The Brocktons arrived from Biddeford on the 8 o'clock train last evening. They were accompanied by friends, making a party of 14. They are quartered at the Merchants' Exchange Hotel.

OTHER GAMES.

At Pittsburg—Pittsburgs 13, Metropolitans 3.
At Cincinnati—Cincinnatis 8, Brooklyns 3.
At Louisville—Louisvilles 2, Baltimores 5.
At St. Louis—St. Louis Browns 7, Athletics 6.

HAVERHILLS 6, LAWRENCES 2.

The Haverhills went to Lawrence yesterday, and played a championship game with the Lawrences. It was a pretty game, judging by the score, which was Haverhills 6, Lawrences 2.

ASSISTS.

Patton, change pitcher of the Concord nine, is deaf and dumb.

Scanlon, of last year's Boston Unions, who recently signed with the Waterburys, has been released.

The Portland Reserves will play the High School nine Monday afternoon, at 3 o'clock, on the Western Promenade. The Reserves' battery will play on the High School nine.

The Brocktons' uniforms are of maroon and old gold, with belted jackets of navy blue.

Ellis, of last year's Sanfords, and Barton and Stone of the Citizens, have signed with the Newburyports.

Several of the Portlands went out to Biddeford yesterday to witness the Brockton-Biddeford game.

Bignell, of the Brocktons, has received a flattering offer from Milwaukee. He will remain in Brockton.

Notwithstanding the defeat of the Portlands on their recent trip, we predict that they will make a brilliant reputation before the season has far advanced.

The Brocktons beat the Roxburys 7 to 2 Thursday. The Brockton pitcher was Taylor, and the Roxburys got two safe hits, both made by one man.

There will be three league games in Portland next week, with the Haverhills, Lawrences and Biddefords.

The league game at Biddeford yesterday, between the Biddefords and Brocktons at the latter part of the second inning was postponed until Monday, on account of rain. The score was 2 to 2.

DO YOU KNOW

That the very best blood purifier and spring medicine is Hood's Sarsaparilla.

That it cures biliousness, indigestion, dyspepsia, headache, and kidney and liver complaints.

That it is a wonderful medicine for restoring and sharpening the appetite.

That it cures scrofula, salt rheum, boils, pimples, or other diseases of the blood.

If you suffer from any of these affections, try Hood's Sarsaparilla at once.

Hood's Sarsaparilla.

"When in the spring I felt all run down and much debilitated, I found Hood's Sarsaparilla just the medicine to build me up. My wife also, after much physical prostration, found in its use new life and lasting benefit. Upon our little girl, who had been sick with scarlet fever, its effect was marvelous, entirely removing the poison from her blood and restoring her to good health." E. G. STRATTON, Swampscott, Mass.

Purifies the Blood.

"Hood's Sarsaparilla as a blood purifier has no equal. It tones the system, strengthens and invigorates, giving new life. I have taken it for kidney complaint with the best results." D. R. SAUNDERS, 31 Pearl Street, Cincinnati.

"I was troubled with salt rheum three years. I took Hood's Sarsaparilla and am entirely cured and my weight has increased from 108 pounds to 135. MRS. ALICE SMITH, Stamford, Conn.

"I can recommend Hood's Sarsaparilla to all as a safe, sure medicine. It cured me of terrible headaches, and cured my little girl of swellings in her neck which had been lanced twice." MRS. F. E. LORD, Gates Ave., Brooklyn, N. Y.
